**LIGHTNING: \$36,575**

***The UEV-310 is Conqueror Australia's smallest and lightest Urban Escape Vehicle.***

With over two cubic metres of lockable storage designed for maximum space utilisation, fast and easy set-up, a 90L low centre gravity water tank and an excellent departure angle, you will fall in love with this versatile camper.

The UEV-310 will happily sit behind some of the smaller dedicated AWD vehicles without an issue and not only provides a home away from home but also the flexibility to store valuables such as tools and other camping equipment.

If you need to tow light, have restricted storage space or just

prefer versatility in the outback or on Australia's beaches, the UEV-310 is a go!

The 2017 Lighting model features additional specifications and upgrades including DO35 coupler, nosecone and AU IRS axle, upgraded 10" offroad electric brakes and 2kg gas bottle.

The Conqueror Lighting also comes with a gas hot water unit servicing a shower and the kitchen area. In addition to the awning and wolfpack boxes the Lightning also boasts an array of additional inclusions such as the Conqueror BBQ grill, portable stove and electric water pump, making this a feature filled get-away package.

**Made for Australia — 20 years experience manufacturing military & off-road vehicles**
